***A Global* Exhibition Platform**

For Footwear, Leather and Allied Industries

BFLEX, Bharat Footwear & Leather Expo, is a trade exhibition for footwear, leather goods, components, materials, and allied industries.

Organised by the **Council for Leather Exports** under the aegis of the **Ministry of Commerce and Industry, Government of India**, BFLEX is backed by an institution that has supported India's leather and leather products exports for over four decades.

The exhibition brings together manufacturers, exporters, suppliers, buyers, sourcing teams, providers and industry stakeholders from across the sector.

For two days, products, capabilities and business opportunities come together in one place, creating an environment built for sourcing, evaluation and trade.

What Makes **BFLEX** Significant

A Serious Buying Environment

Built for buyers, sourcing teams and trade visitors who come with business intent and clear sourcing requirements.

A Complete Industry View

From finished products to components, materials, and services, BFLEX presents the industry in its full depth.

Direct Access to Decision-Makers

Meet manufacturers, suppliers, exporters and buyers directly, making conversations faster and more meaningful.

A Stage for Capability

Products matter. So do quality, consistency, production strength and supply readiness. BFLEX gives businesses the opportunity to demonstrate all of it.

A Bridge Between Markets

With participation from India and overseas, BFLEX creates opportunities for sourcing, trade and long-term business relationships.

Sourcing doesn't fail because

buyers lack options. It fails because the right ones are hard to find.

Why **BFLEX** Matters?

Footwear and leather sourcing has become more demanding.

Buyers need to see more than products.

They need to understand quality, consistency, timelines, materials, pricing, and the ability to support repeat orders.

For exhibitors, visibility is not enough.

They need to be seen by serious buyers who are ready to talk business.

BFLEX brings both sides into one focused setting.

It helps buyers move from search to evaluation. And exhibitors move from visibility to real trade conversations.

It Shortens the Search

Buyers can explore multiple categories, suppliers and capabilities in one place.

It Builds Trust Faster

Face-to-face meetings make it easier to evaluate products, people, processes and intent.

It Gives the Industry a Shared Stage

Footwear, leather goods, components, materials, and allied businesses are presented together.

It Turns Interest into Business

BFLEX creates the setting for discovery, evaluation, market conversations and future partnerships.

India brings together the rare mix of global sourcing needs

Craft, scale, flexibility, and manufacturing depth.

Why *India* Works for Global Footwear & Leather Sourcing

Scale That Buyers Can Take Seriously

India is one of the world's largest footwear producers, giving buyers access to a manufacturing base with volume, category depth and repeat supply potential.

Competitive Value with Skilled Making

India combines skilled manpower, production experience and competitive cost structures, making it commercially attractive for global sourcing.

Raw Material and Processing Depth

With significant leather availability, established tanning capabilities and material expertise, India offers strength across leather-led product development.

Design, Development and Technical Support

Institutional support in design, product development, HRD and R&D strengthens India's ability to support buyers beyond production alone.

Category Coverage

From footwear and leather goods to materials and components, **BFLEX** brings the industry's key sourcing categories into one focused platform.

BFLEX brings together the complete commercial spectrum of the footwear and leather industry, giving buyers and exhibitors a clear view of the businesses that support the sector from concept to finished product.

Footwear

Men's, women's and children's footwear across leather, non-leather, fashion, casual, comfort, formal and specialised categories.

Leather Goods

Bags, wallets, belts, accessories, travel goods and lifestyle products built around material quality, finishing and design.

Materials

Leather, synthetics, textiles, chemicals, finishes and innovative material solutions for evolving product and market needs.

Components

Soles, insoles, uppers, trims, fittings, adhesives, linings, reinforcements & more for performance and consistency.

For *Buyers* Looking at India

BFLEX gives buyers direct access to the people, products and capabilities behind the footwear and leather industry.

Supplier Discovery with Context

Meet businesses across footwear, leather goods, components, materials and machinery, and understand not just what they sell, but what they can support.

Quality and Price Evaluation

Compare product range, finishing, materials, construction, pricing logic and commercial feasibility across multiple suppliers in one visit.

Access to Decision-Makers

Engage directly with manufacturers, exporters, sourcing-ready suppliers and business owners, reducing the gap between interest and actual trade conversations.

Private Label and Custom Discussions

Explore design requirements, specifications, product development, MOQ possibilities, timelines and repeat supply needs directly with capable businesses.

A Wider View of the Industry

Look beyond finished products and discover the components, materials, machinery and services that shape the complete footwear and leather supply chain.

For *Businesses* Ready to Be Seen

BFLEX gives footwear, leather and allied businesses a credible stage to present capability, not just products.

Visibility Among Serious Buyers

Exhibit in an environment designed for trade visitors, sourcing teams, importers, buying houses and industry stakeholders looking for business opportunities.

Capability-Led Positioning

Present your product range along with the manufacturing strength, material knowledge, finishing quality and supply readiness behind it.

Direct Business Conversations

Meet buyers, sourcing representatives and trade decision-makers face-to-face, reducing dependence on scattered outreach and delayed communication.

Category and Market Exposure

Showcase your business alongside footwear, leather goods, components, materials, machinery and allied sectors, giving visitors a fuller view of what you offer.

Export and Domestic Growth Opportunity

Use BFLEX to build visibility with both Indian and overseas buyers, explore new market possibilities and create conversations that can lead to long-term trade relationships.

Venue and *Experience*

BFLEX 2026 will be hosted at **Yashobhoomi, New Delhi**, one of India's leading convention and exhibition destinations. Designed for international exhibitions and large-scale business events, the venue provides the infrastructure, accessibility and professional environment expected by exhibitors, buyers and trade visitors.

Venue Advantages

Built for Large-Scale Exhibitions

Modern exhibition halls designed to support category showcases, product displays, meetings and high visitor movement.

Strong Connectivity

Located in New Delhi with convenient access to IGI Airport, metro connectivity and major road networks.

Smoother Visitor Experience

Clear navigation, meeting spaces and visitor facilities help attendees focus on business, not logistics.

Business-Friendly Location

Easy access to hotels, transport and the wider Delhi-NCR business ecosystem.

A Message from the Leadership Behind **BFLEX**

Mr. Ramesh Juneja

Chairman

Council for Leather Exports

“India’s footwear and leather sector has been built over decades by manufacturers, exporters and skilled professionals who understand quality, consistency, and global trade. This industry has earned trust across markets through workmanship, reliability and the ability to respond to changing buyer expectations.

BFLEX is a platform to bring that strength forward. It gives India’s footwear and leather industry the opportunity to present its depth, strengthen international connections and create new pathways for trade.”

Mr. Mukhtarul Amin

Vice Chairman

Council for Leather Exports

“In footwear and leather, buyers do not look at products alone. They look at the people, processes, and supply confidence behind those products. BFLEX creates the right setting for these conversations. It allows buyers to meet businesses directly, evaluate products closely, and understand the capability behind each offering.

For manufacturers, exporters, and allied businesses, it is an opportunity to build trust, open serious discussions, and create relationships that continue beyond the exhibition.”

Ways to Be Part of **BFLEX**

Register as a Buyer

For buyers, importers, sourcing teams, buying houses, retail chains and brands looking to explore footwear, leather goods, components, materials and manufacturing partners.

Register as an Exhibitor

For footwear manufacturers, leather goods businesses, exporters, component suppliers, material partners, and allied service companies ready to showcase their capabilities.

To explore the participation routes below, please connect with us here.

info@bharatfootwearleatherexpo.com

Explore Sponsorship Opportunities

For organisations looking to build visibility among a focused trade audience and align with one of the industry's important exhibition platforms.

Register as a Domestic Visitor

For Indian retailers, distributors, wholesalers, sourcing professionals, manufacturers, entrepreneurs and trade visitors looking to discover new products, suppliers and business opportunities.

Join as an Industry Partner

For associations, trade bodies, institutions and ecosystem partners looking to support industry growth, participation and global business engagement.

Industries move forward when the
right people meet at the **right time.**
